Akwa Ibom, Nigeria

1 PROFESSIONAL SUMMARY

Full-Stack Developer with experience building responsive, user-focused web applications across modern frontend and backend technologies. Skilled in React, Next.js, Vue, Svelte, TypeScript, Tailwind CSS, Python, Django, FastAPI, REST APIs, and Supabase. Experienced in working across frontend and backend teams, integrating APIs, and building scalable digital products with a strong focus on performance, maintainability, and user experience.

2 EDUCATION

Bachelor of Science (BSc), Computer Science | 2020 – 2024

Obong University, Etim Ekpo, Akwa Ibom, Nigeria

3 WORK EXPERIENCE

Full-Stack Developer | Aug 2026 – Present

Hoste Technology Limited | Remote

- Contribute across frontend and backend development, working with engineering teams to build and improve production web applications.
- Develop and integrate frontend interfaces with backend services and REST APIs, ensuring reliable data flow and a consistent user experience.
- Contribute to backend engineering using Python/Django, including API development, application logic, and service integration.
- Collaborate with backend engineers on implementation, debugging, code quality, and maintainable engineering practices.
- Use Git and collaborative development workflows to manage changes and support effective team delivery.

Frontend Developer Intern | Apr 2026 – Jul 2026

CAYAHQ | Remote

- Improved website performance by implementing modern JavaScript frameworks, increasing overall efficiency by 25%.
- Optimized page loading speed, contributing to a 15% reduction in bounce rates.
- Collaborated with UX/UI designers to enhance user experience and improve interface usability.
- Utilized Git and version control workflows to streamline collaboration across development teams.
- Participated in code reviews to improve code quality, maintainability, and team knowledge sharing.

4 PROJECT EXPERIENCE

VerseID — AI-Powered Bible Verse Identification Platform | 2026 | verseid.top

- Designed and developed a full-stack web application that identifies Bible verses from spoken or typed fragments, presenting the matching book, chapter, verse, translation, and confidence score.
- Built voice-based verse identification with browser speech transcription and a backend matching pipeline for turning spoken scripture into searchable text.
- Implemented fuzzy text matching and semantic search capabilities to handle partial phrases, minor misquotes, reordered words, and meaning-based searches.
- Developed the frontend with React/Vite and built backend APIs with Python/Django, connecting the application to its verse database and application services.
- Implemented user-facing features including authentication, verse collections/library, sharing, search, and usage limits, with responsive interfaces across devices.
- Deployed and maintained the production application using modern web hosting and deployment workflows.

UptownLogs — VTU, Social Growth & Gift Card Reseller Platform | 2026 | uptownlogs.com.ng

- Designed and built a full-stack e-commerce platform offering social media growth services, airtime/data top-ups, and gift cards, funded through an in-app wallet.
- Integrated third-party reseller provider APIs for automated order fulfillment across social growth services (Instagram, TikTok, YouTube, and more) and VTU/gift-card products.
- Implemented wallet funding via Flutterwave virtual bank accounts, with real-time balance updates and purchase notifications for customers and admins.
- Built an admin dashboard for order management and customer support, including an AI-assisted reply suggestion feature for support chats.
- Added secure authentication with WebAuthn/passkey sign-in, persistent "remember me" sessions, and user-configurable account settings.
- Developed the frontend with Next.js and Tailwind CSS and backend APIs with Python/FastAPI, backed by a MongoDB database.

Personal Developer Portfolio | 2026 | code-with-nuel-portfolio.vercel.app

- Designed and developed a responsive portfolio website showcasing frontend development projects and technical skills.
- Implemented modern UI animations and responsive layouts to improve user engagement across devices.
- Deployed and maintained the application using modern hosting and deployment tools.

5 TECHNICAL SKILLS

React.js • Next.js • Vue.js • Svelte • JavaScript (ES6+) • TypeScript • HTML5 • CSS3 • Tailwind CSS • Responsive Web Design • Python • Django • FastAPI • REST APIs • Supabase • MongoDB • Git & Version Control

6 ADDITIONAL SKILLS

Cross-Team Collaboration • Problem Solving • Communication • Teamwork • Time Management • UI/UX Collaboration • Adaptability • Attention to Detail • Critical Thinking
